Amendments to the Abstract:

In the English translation document, please add the abstract at page 18 line 1, as follows:

--ABSTRACT

In order to grant an access to a computer-based object, a memory card having a program code processor is provided, on which at least one public and private key assigned to the memory card are stored. In addition, an item of license information is provided, which comprises at least one license code encrypted by means of the public key assigned to the memory card, on a computing device which controls the access to the computer-based object.--
